Sir:

In response to the Official Action with a mailing date of March 22, 2005, Applicant hereby respectfully submits this response and requests consideration as set forth below.

Election/Restriction:

The Examiner has required Applicant to 1) restrict this application to examination on one of three (3) Examiner determined, disclosed inventions under 35 U.S.C. §121, and 2) elect a single disclosed species for prosecution on the merits to which claims shall be restricted if no generic claim is finally held to be allowable. The Examiner has stated that currently no claim is generic.

Applicant: 1) provisionally elects to restrict prosecution of this application to the invention the Examiner has determined as being disclosed in claims 1 - 18, 31 and 34 for prosecution on the merits, with traverse; and 2) provisionally elects, species A - a transportation device without surface discontinuity, bridges or rigid structure to which the claims shall be restricted if no generic claim is finally held to be allowable, with traverse. Applicant's understanding of the species as preliminarily set forth in the first office action by the Examiner serves as the basis for the provisional election with traverse by Applicant.
